“There is clear evidence that early experiences have a significant impact on the biology of the body and on brain development, with implications for lifelong physical and mental health and well-being.”

How Does Happen? Ontario’s Pedagogy for the Early Years, 2014

## Program Descriptions

**Active supervision is an expectation of parents/caregivers during all programs.**

**Play to Learn** is a drop in program designed to encourage quality interactions between adults and children. This program is open to children birth to six years and their caregivers to play and learn together. 'Fun with' sessions will include a series of focus activities that will touch on a range of developmental skills each week.

## Outreach Calendar

### What is OUTREACH all about?

Ontario Early Years Centers offer outreach programs and services to as many families as possible in the community. We find innovative ways to connect with hard-to-reach families. We actively seek out families and children who could benefit from our services and from other early years services in the community.
