“There is clear evidence that early experiences have a significant impact on the biology of the body and on brain development, with implications for lifelong physical and mental health and well-being.”

How Does Learning Happen? Ontario’s Pedagogy for the Early Years, 2014

I would like to take this opportunity to remind all families that two of the YMCA'S core values are inclusiveness and respect. Any negative comments based on the grounds of values and race, color, culture, ethnic origin, gender, sexual orientation, age, disability, family status or any other reason are completely unacceptable. All program participants have the right to feel safe attending programs. If you witness such comments and behaviours, please report it immediately to the program staff. Children come to the OEYC to learn various skills and it is also a learning process for the adults and staff. Please remember we expect you to uphold the YMCA/OEYC values when attending programs.

Jane Thompson

Manager, Family Support Programs

Play to Learn is a drop in program designed to encourage quality interactions between adults and children. This program is open to children birth to six years and their caregivers to play and learn together. 'Fun with' sessions will include a series of focus activities that will touch on a range of developmental skills each week.

Music and Movement

This program is designed to enhance your child's appreciation of music. Children will enjoy this fun program including songs, instruments, and a variety of creative movement activities.

Outreach Calendar

What is OUTREACH all about?

Ontario Early Years Centers offer outreach programs and services to as many families as possible in the community. We find innovative ways to connect with hard-to-reach families. We actively seek out families and children who could benefit from our services and from other early years services in the community.
